SEVERAL REMEDIES SUGGESTED.

The Consumptive Power of the People the Real Roms of Raw Cotton_"Futures" Largely Responsible for the Trouble. The Demonstization of Silver.

George, chairman of the Senate Committee on Agriculture, has made a report remedies that should be applied. The incotton, from which it appears: First, spread discontert among cotton producers and a disposition to discredit their old-time conservative methods and to induce a too ready acceptance of plausible theories for relief.

With regard to the causes of the low

The concentral that the obvious, apparent and proximate cause is over-production. Since, in the main, with de-viations produced by abnormal condi-tions, prices are regulated by supply and demand—a full supply—with relatively diminished demand brinking low prices. prices-where there is an annual increas-ing supply, through the effort to maintain

Statistics are produced to overthrow the theory of over-production being the cause of low price, the surplus in America and Europe being less than in 1896. In concluding this part of the report the committee mays, It is the effective wants of the ultimate consumer which fixes the amount of the demand for the raw cot-In the United States, and foreign cotton manufactures were admitted free of duty and sold at a cost no higher than is now charged for cotton goods, there would not be one pound less consumed in the United States than at present. It such goods were admitted at a lower price consumption would be advanced. So that the real, effective home market for the raw cotton, wherever manufactured, is in the consumptive power of the people. Whoever takes the cotton from the farmers and gives it in a manufactured state to the consumers at the lowest added cost is a beneficial agent, both to the consumer and producer, by mereasing consumption and preventing a surplus. consumption and preventing a surplus. Whoever and whatever increases this additional intermediate charge, reduces con-

The Carious extent to which dealing in "futures" has attained in late years is amounced as another cause contributing to lew prices. Much testimony on this subject was taken by the committee. An elaborate argument is made to show the power of Congress to deal with this subject and control or suppress it. Harbor. power of congress to deal with this subject and control or suppress it. Having combished this fact to its own satisfaction, the committee's report continues: "It would seem to require no argument to show the propriety of the exercise of the power, if only the result would be to restore to the public at large the free and untrammeled right of buying and selling, and thus destroy an illegal monopoly (conily by the salvation of the

manifest interest of the whole country that all airrangements, customs of trade, which artificially depress the price of cotton, should be abolished. Cotton raising is the principal business of al least nine States, the people of which are, in the main, from many causes, unable to change to other business for many years to come. To these people specially, shown by the evidence, we report to be in the bad flushical plight we have described. It is a high daty of the common government of the whole country, that it shall use its powers to prevent decreasing in

DUTY-BOUND TO ABOLISH THEM.

The committee concludes this part of not for any long feriod control absolutely
the price of cotton independent of the
supply and demad, yet they clearly sometimes abnormally produce too low prices,
as well as high prices, as is admitted by
their advocates, from a temporary period, but generally they depress to a
considerable extent prices, and that Congress not only has the power to abolish
them, but it is in duty bound to do so.
Under part four the demonstration of
sliver is discussed, this being a cause for
the low price of cotton in the extension. the low price of cotton in the estimatio any. There are many printed pages arg ments in favor of the rehabilitar of silver and the prevention thereby of falling prices by the opposition of gold The committee also finds that importation from Europe, other than by the regmmercial methods, tends to depress the price of cotton, as it lessens the amount of money in the market, which

The report concludes with a division de-voted to remedial legislation. The con-clusions reached by Mr. George are non-concurred in by his Republican associates. His great remedy is the remon-Other remedies suggested by the report are the repeal of the duty on cotton manufacturing machinery, especially spinning machinery, the accomplishment of which, the report admits, is unlikely. After viewing all sides of the question the report says that it will be found impossible to forecast with certainty the future in all phases of the cotton problem, but it seems that the following may be relied on with some confidence.

be relied on with some confidence:
First, Considering soil and climate, industry and skill of the people, the American cotton-raiser has the advantage over
all others, and in the sharp competition
in the future he will be the most success-

Second. That, as told, high prices are not to be expected, the American cotn raisers may so generally diversify eir crops with others suited to the soil and climate as to supply most of their wants and to that extent secure to themselves immunity from the evils of

from debt to sell on a low market will

e less felt. Fourth, That if the general prices shall Fourth. That if the general prices shall continue low after the change to low prices shall become permanent, and after the distress coming from falling prices shall in a measure pass away, those who have escaped ruin or who shall be relieved by a settlement of their old debts may adjust themselves to those conditions and have a new prosperity.

REAL RECOVERY AREAD. There Seems to be a Fairly Good Ground

NEW YORK, Feb. 22.-R. G. Dun & Co. s weekly review of trade says:

The surprising success of the new loan and the confidence it has given to investors on both sides of the water and to business men here encourage many to hope that it may be the beginning of a real recovery. In twenty-two infinites here the subscriptions are supposed to have been at least five times the amount of bonds offered, and in two hours at London they were twenty times the amount there offered. Considering the power which the control of these bonds gives to regulate foreign exchanges and to prevent exports of gold, the transaction has indeed greatly changed the financial situation, in spite of the fact that Government revenues are still deficient, and that domestic trade shows scarcely any gain as yet. The industrials are not enlarging productions, nor have prices of farm products improved. But a very important source of hindrance has for a time at least been removed. The surprising success of the new loan

But a very important source of hindrance has for a time at least been removed.

Cotton has refused to acvance, though there has been much talk about curtailment of acreage this year and receipts have sharply decreased. The decrease was apparently owing to the imprecedented weather at the South, and the market is more influenced by the certain oversuppsy during the next six months than by the possible shrinkage in yield next fall, as the market for goods is duil here and abrond. The fact that visible stocks of American are about 300,00 bales larger than in 1852 at date justifies expectations that the surplus carried over will be large.

The volume of domestic trade represented by exchanges is but little larger than last year, with allowance for difference of working days, and 32.5 per cent. smaller than two years ago. The more accurate test given the daily average for the month as 6.3 per cent, larger than last year, but 34.4 per cent, smaller than in 1852.

Dealings in iron and its products are moderate in volupne, with some discouragement in most branches, though structural works at Pittsburg are very busy, and the demand for whe bails and barned wire has never been surpassed. But nothing is doing in rails, plates are quilet, and bar is as low as ever, though in rather better demand for car works.

Prices of pig do not improve.

ever, though in rather better demand for ear works.

Prices of big do not improve.

Textile products show few changes, but those downward. Cottons are meeting an indifferent demand, and New York mills 4-4 bleached have been reduced to the and Lonsdale 4-1 bleached to the change in the first prices are irregular. A better demand appears for the finer prints, but fancy calicoes are quiet, and there is only the average order business for dress goods.

Goods.

The failures for the first half of February show habilities of \$5,550,086, against \$8,554,072 last year, of manufacturing concerns, \$1,502,319, against \$1,49,845 last year, and of trading concerns, \$2,353,09, against \$4,765,749 last year. The failures for this week have been 302 in the United States, against 388 last year, and in Canada 36, against 51 last year.

FIRGINIA RACING GOSSIP.

Approaching 8t, Asaph Meeting, WASHINGTON, D. C., Feb. 22.—Own-

ers of stables quartered at the St. Asaph beginning to wonder how they can win races at the approaching spring meeting with stable boy jockeys. Unless Taral and Doggett come down from New York the third class. When the meeting begins will be either in England or sen route to join the Dwyer-Croker contingent there. Griffin and Bergen at San Fracisco and a majority of the lesser lights at New Orleans, or with their stables, getting ready for the western campaign. One owner wrote to Jockey John Lamly, at Passaic, N. J. making him at first-rate offer for his services the closing fortnight in March. Lamly declined on the score that he would be obliged to report for duty with the Ruppert string at Nashville, Tenn., March 1st. It is said that "Jimmie" Lamly, who was not allowed to ride in California, and is now at Eabylon, L. I., will be claimed by "Lucky" Baldwin, in the event of his securing a license and not permitted to come beig come. course, of the Virginia Jockey Club, are uring a license and not permitted to come here even as an exercise boy. Had he Old Dominion Jockey Club obtained recognition from the Western Turf Con-ress, the Virginia's patrons could have drawn upon such clever boys as Taylor, Ham, Murphy, Donnelly, Yetter, Burns and Dwyer, but, as the Old Dominion is still outlawed, there can be no relief

minion, is authority for the statement that as yet no date compromise has been arranged by representatives of the rival clubs. He said yesterday that his club would resume racing March 1st. Owners who stabled at St. Asaph during the win-ter and raced at Alexander Island, have the that a stable of jumpers, including frand Prix, im. Bones, Walcott, Gonzales and Bobolink, will be organized at Alex-nder Island, schooled and sent to Haw-

It is officially announced that the Old Dominion Jockey Club would begin operaions at Alexander Island on March 1st.

A RISHOP OPENS A SALOON.

Pretty Waiter Girls, a Free Lunch and Non-

CHICAGO, Feb. 22.-Bishop Fallows, of the Reformed Episcopal Church, opened his "place" yesterday. It is called "The People's Institute Home Saloon." and is designed to give men all the accommo-dations of a saloon without the alcoholic accompaniments. There were a fine lench and four pretty waiter girls. Many old-time friends came in and greeted the Elshop warmly, as he told them of the nutritive properties of the non-alcoholic beer, which would flow from the spigots as soon as the pumps were properly fitted

"its a pure brewed extract of hops and malt," he explained, " and while there is no alcohol in it, any beer drinker will declare it to be a good, bitter drink, and a close counterfeit of beer without any of the bad effects of alcoholic beer. I am satisfied that it is going to be the drink of the place." He grew so enthusiastic that "Billy" Bradley, the colored porter, was sent down below to tap a keg and bring up a sample pitcher of the foaming bevereage. It is called the "Bishop's drink." There was a great rush all day,

Ward McAlister's Money.

NEW YORK, Feb. 22—When Ward McAlister ded, on January 31st, hone of the members of his family knew whether or not he had made a will, and on the day of his funeral an order was granted by the Surrogate permitting Lawyer H. H. Anderson to examine Mr. McAlister's safe-deposit box. No will has been found. In view of this fact, Mr. Anderson made an application to-day to Surrogate Fitzgerald for letters of administration upon the estate.

Mr. Anderson represents Miss Louise McAlister, the daughter of Mr. McAlister, and in her petition to the court she states that her 5 there left only \$10,000 in personal property.

The statement that Mr. McAllister left only \$10,000 in personal property and ho Ward McAlits er's Money.

The statement that Mr. McAllister left quly \$10,000 in personal property and no real estate will be something of a surprise to those who knew him only as a leader of New York's wealthiest end most fashionable society. As a matter of fact, however, Mr. McAllister never had the reputation of being a rich man. The real estate that was supposed to be Mr. McAllister's now belongs to his wife.

A Navy Yard Scandal.

themselves immunity from the evils of low prices.

Third, Such diversification would tend to the prosperity of cotton farmers in that it will facilitate the change now absolutely necessary for the expensive system of gredit whereby supplies purchased will be cheaper and the pressure coming

MUNYON AT THE HEAD.

His New System Fast Superseding Old School Methods.

The Professor's Marvelous Success in Coring Diseases That Have Baffled Others.

Mrs. J. B. McLeod, of 204 Hodge avenue, Buffalo, N. Y., says: "I have suffered from rheumatism for the past ten years, and though I tried many remedies none of them ever had the slightest apparent effect. Finally, I began to use Munyon's Rheumatism Cure, and within a very short time I was completely

cured. I cannot recommend Munyon's Rheumatism Remedy too highly."

Munyon's Rheumatism Cure acts almost instantaneously, curing many obstinate cases in a few hours. It is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism the body. Acute or muscular rheumatism cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, side, back or breast, or soreness in any part of the body, in from one to three hours. It promptly cures lameness, stiff and swollen joints, and all pains in the hips and loins, chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured. It sel-dom falls to give relief after one or two

doses, and almost invariably cures be-fore one bottle has been used.

Munyon's Homocopathic Home Remedy Company, of Philadelphia, puts up spe-cifies for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle

made by Admiral Beardslee is said to be the cause of the investigation.

It is hinted that poor and cheap material and poor workmanship have characterized recent repairs made at Mare Island. The cruiser Philadelphia and the gunboats Yorktown and Bennington and the cruiser Boston, all of which are reported disabled, were very recently overhauled at Mare Island. The Bennington, which is en route from San Diego to Colombia, is crippled, and will be held at Acapulco for repairs. The Yorktown, which is on the China station, is also crippled. The Boston is again back at Mare Island undergoing repairs.

The Philadelphia, on which \$59,000 was expended in repairs at Mare Island, broke down on her first cruise after leaving the yards. She was badly beaten on her cruise to Honolulu by the steamer Australia. Her starboard engines were disabled and her port engines badly strained. Admiral Beardslee reported these facts to Washington, it is stated, and accompanying his reports were severe strictures on the methods prevailing at Mare Island. made by Admiral Beardslee is said to be

Kelb Wants A other Rully.

Kelb Wants A other Relly.

MONTGOMERY, ALA., Feb. 22.—The Birmingham Tribune, Captain Kolb's newspaper, and conducted by his son, publishes the following:

"The Tribune is not the mouthplees of Governor Kolb. When he appears in these colums he signs his name to what he says. But it has knowledge of his purpose. He will act if the people will stand by him. Will they do it? Let every good citizen who is ready and willing to uphold the law and who recognizes the people's chosen leaders, send his name to the Tribune, and the test will be made. You must make the beginning of change you clamor for or you must quall ignomiously before your duty. The dry rot is upon you or your restored liberties are with you at your own free will. Choose your path."

There is talk that Kolb will pose again as Governor when the Legislature is decidedly a thing of the past.

Terrific Fight With a Bog.

inspection.
Erastus Wiman, who was present in the interest of the Interior railroad, at once handed the books of his company to the trustees. The promptness with which this was done so surprised the opponents of the road they could do nothing more, and an adjournment was taken.

RICHMOND, Feb. 22, 1895. No offerings of tobaccos at auction on

Change to-day.

SHROUDED IN MYSTERY. Plerre Bogdanoff Writes a Note to His Rel.

As a result of cable communication with his relatives in Moscow, the remains of Mr. Pierre Bogdanoff, first secretary of the Russian Legation, were to-day quiet-ly interred in Rock Creek cemetery, in this city. Mr. Bogdanoff, suffering in-tensely from neuralgia, shot himself in his bedchamber on Wednesday morning last, leaving a note saying that "to a long-time dead soul" he found the body

too heavy a burden, and therefore destroyed himself. What mystery, if any, lay behind this tragic taking-off is probably ouried with him. The note which he left for relatives has been forwarded to them, unopened. A priest of the Greek Church came on from New York, and conducted at the home of the deceased the simple ceremonies which, under the circum-stances, were all that possibly could be done in the way of religious ceremony. Prince Cantacuzene, the Russian min-ister, with the members of the Russian Legation and many other diplomats, attend the service, but only a few sonal friends followed the remains to

Wrecks on the Norfolk and Western, PLUEFIELD, W. VA., Feb. 22.—Spe-nal.—The weather here continues very old and disagreeable. The public schools esumed yesterday with a small attend-

the grave.

Much building is in suspension here on account of the uncertainty of the weath-

Your correspondent learns there were two wrecks on the Norfolk and Western Wednesday night, west of this point. The passenger train is said to have gone into Tug river at Hemphill, and a freight train derailed at Hillside. We have been unable to get particulars. The process of attachment against the employes of the Norfolk and Western railroad has almost abated from the fact of the appointment of the receivers. This Your correspondent learns there were

f the appointment of the receivers. This has been a large source of tevenue to our magistrates and constables. Some are inlined to think that the employes can still be attached in the State courts.

A Husband's Quick Venzeance.

A Husband's Quick Venzeance.

LOUISVILLE, Feb. 22.—An unknown negro was shot and killed ten miles from here in this county yesterday by William Morris a farmer.

During Mr. Morris absence from home Wednesday the negro slipped into the house, and as Mrs. Jorris, who is a bride of only a few weeks, came in from the yard, he knocked her down. Several ladies of the neighborhood coming in just then saved her from further assault. The negro fled.

When Mr. Morris reached home at night and learned of the affair he took his shot-gun and tracked the negro all night and until about noon yesterday when he ran upon him in a swamp. He shot him dead and then surrendered to the sheriff. At his examining trial Mr. Morris was acquitted, there being no doubt of the negro's identity.

Dead bodies, when taken as cargo on a ship, are always described as either statuary or natural history specimens, owing chiefly to the superstition of sau-
